

Q1 Write the Roman numerals for each of the following numbers.

a) $36 = \text{XXXVI}$

b) $45 = \text{XLV}$

c) $359 = \text{CCCLIX}$

d) $198 = \text{CXCVIII}$

e) $88 = \text{LXXXVIII}$

f) $112 = \text{CXII}$

Q2 Write the Hindu-Arabic numbers for each of the given numerals.

a) $\text{XIX} = 19$

b) $\text{XLIV} = 44$

c) $\text{XCV} = 95$

d) $\text{CMXXXVIII} = 938$

e) $\text{LVII} = 57$

f) $\text{CDV} = 405$

g) $\text{CMXVI} = 916$

Q3 Find the sum of the following and write answers in Roman numerals.

a) $\text{XXX} + \text{XXIV} = 30 + 24 = 54 = \text{LIV}$

b) $\text{XIX} + \text{L} = 19 + 50 = 69 = \text{LXIX}$

c) $\text{XII} + \text{VIII} + \text{XXII} = 12 + 8 + 22 = 42 = \text{XLII}$

d) $\text{XXXIV} + \text{L} = 34 + 50 = 84 = \text{LXXXIV}$

Q4 Change the Hindu-Arabic numbers into Roman numerals and find the difference. Write the answer in Roman numerals.

a) $40 - 20 = 20 = \text{XX}$

b) $50 - 21 = 29 = \text{XXIX}$

c) $50 - 19 = 31 = \text{XXXI}$

d) $60 - 40 = 20 = \text{XX}$

Q5 Fill in the blanks with Roman numerals.

a) November has XXX days.

b) February has XXVIII or XXIX days.

c) A person has XXXII teeth.

d) A year has LII weeks.
